

Laura Berry

laura.berry329@example.org | (564)249-3332x70380 | Embedded Software Engineer (Junior)

SUMMARY

Motivated Embedded Software Engineer with a solid foundation in C/C++ programming and hardware-software integration. Passionate about developing efficient firmware for real-time systems and eager to contribute to innovative hardware solutions.

SKILLS

C/C++, Embedded Linux, RTOS (FreeRTOS), ARM Cortex-M, Git, I2C/SPI/UART, Python, JIRA

EXPERIENCE

Junior Embedded Software Engineer - Apex Robotics Solutions (2022-07 - Present)

Developed and optimized firmware for motor control modules, reducing power consumption by 15% through efficient task scheduling. Collaborated with hardware teams to perform integration testing on 3 custom PCB prototypes.

Embedded Software Intern - Nexus Systems Tech (2022-01 - 2022-06)

Assisted in the development of device drivers for peripheral sensors and created automated test scripts in Python to streamline the validation process.

EDUCATION

B.Sc. in Electronics and Computer Engineering - Summit Valley Institute of Technology (2021)
