

Kelsey Deleon

kelsey.deleon618@example.net | 342.238.5320 | Software Architect (Senior)

SUMMARY

Accomplished Software Architect with over 10 years of experience in designing scalable distributed systems and microservices architectures. Proven track record in mentoring engineering teams and delivering high-performance cloud-native solutions that reduce infrastructure costs by up to 30%. Passionate about system reliability, security-first design, and fostering high-velocity development cultures.

SKILLS

System Design & Microservices, Cloud Architecture (AWS/Azure), Distributed Systems, Java & Go, Kubernetes & Docker, PostgreSQL & Redis, Apache Kafka, CI/CD Pipeline Optimization

EXPERIENCE

Software Architect - NexusFlow Systems (2019-03 - Present)

Led the architectural migration of a monolithic legacy platform to a microservices ecosystem, resulting in a 40% improvement in deployment frequency. Direct technical oversight for 3 engineering squads, ensuring adherence to clean code standards and system scalability.

Senior Backend Engineer - VertexStream Technologies (2015-06 - 2019-02)

Architected the backend for a high-traffic e-commerce engine that successfully scaled to handle over 100k concurrent users during peak shopping events. Implemented robust caching strategies and message queuing that reduced database latency by 25%.

Software Developer - BlueOrbit Solutions (2012-05 - 2015-05)

Developed and maintained core features for enterprise data processing tools, optimizing internal data pipelines that accelerated reporting capabilities by 50%.

EDUCATION

M.Sc. in Software Engineering - Summit Valley Institute of Technology (2012)

B.Sc. in Computer Science - Northridge Technical University (2010)
