SUMMARY

Results-oriented IT Business Analyst with over 8 years of experience bridging the gap between complex technical systems and business requirements. Proven track record in leading cross-functional teams to deliver enterprise-scale software solutions that increase operational efficiency by up to 25%. Expert in agile methodologies, stakeholder management, and translating intricate data insights into actionable strategic roadmaps.

SKILLS

Requirement Elicitation & Documentation, SQL & Data Visualization (Tableau/Power BI), Agile/Scrum Frameworks, Jira & Confluence, UML & BPMN Modeling, API Specification Design, User Acceptance Testing (UAT), Product Backlog Management

EXPERIENCE

Senior IT Business Analyst - NexusFlow Systems (2020-03 - Present)

Led the end-to-end requirement analysis for a cloud-based ERP migration, resulting in a 30% reduction in manual data processing time. Mentored 4 junior analysts while managing stakeholder communication for a \$2M portfolio of microservices projects.

Business Analyst - Vortex Digital Solutions (2016-06 - 2020-02)

Spearheaded the documentation of over 50+ user stories per sprint for a high-traffic fintech application. Successfully implemented a new CRM module that boosted client retention rates by 15% within the first year of deployment.

EDUCATION

B.Sc. in Information Technology - Stellaris Institute of Technology (2015)
