

Blake Murray

blake.murray819@example.org | 688.712.7884x6676 | Backend Developer (Senior)

SUMMARY

Accomplished Backend Developer with over 8 years of experience in designing and scaling high-performance distributed systems. Proven track record in optimizing database queries and implementing microservices architectures to handle millions of requests per day.

SKILLS

Java, Spring Boot, PostgreSQL, Redis, Apache Kafka, Kubernetes, AWS, Microservices

EXPERIENCE

Senior Backend Developer - NexusFlow Systems (2020-03 - Present)

Lead the development of a core payment processing microservice, resulting in a 40% reduction in latency and handling over 5,000 transactions per second.

Backend Developer - Zenith Cloud Solutions (2016-06 - 2020-02)

Engineered scalable RESTful APIs for a SaaS platform and successfully migrated legacy monolithic components to a containerized environment, improving system uptime to 99.99%.

EDUCATION

B.Sc. in Computer Science - Veridian Institute of Technology (2016)
