

Kristen Campos

kristen.campos903@example.com | (479)513-3942 | Software Architect (Fresher)

SUMMARY

Ambitious Computer Science graduate with a solid foundation in distributed systems, design patterns, and cloud-native architecture. Eager to leverage strong analytical skills and academic research to contribute to scalable software solutions and architectural design in a professional environment.

SKILLS

System Design, Microservices Architecture, Java, Spring Boot, Docker & Kubernetes, PostgreSQL, AWS Cloud Infrastructure, RESTful APIs

EXPERIENCE

Software Engineering Intern - Nexus Stream Solutions (2023-06 - 2023-12)

Collaborated with the architecture team to refactor a legacy monolithic module into microservices, resulting in a 15% improvement in system response time. Developed automated testing scripts that covered 80% of core service endpoints.

EDUCATION

B.Sc. in Software Engineering - Veridian Institute of Technology (2024)
