

Patricia Lee

patricia.lee129@example.net | 421.964.9542x7732 | Software Architect (Senior)

SUMMARY

Strategic Software Architect with over 10 years of experience in designing scalable distributed systems and cloud-native architectures. Proven track record of leading cross-functional engineering teams to deliver high-performance solutions while reducing operational costs by 30%. Expert in bridging complex business requirements with robust technical implementations.

SKILLS

System Design & Microservices, AWS Cloud Architecture, Kubernetes & Docker, Go (Golang), Java/Spring Boot, Event-Driven Architecture, PostgreSQL & Redis, CI/CD Pipeline Optimization

EXPERIENCE

Senior Software Architect - NexusFlow Systems (2019-03 - Present)

Led the migration of a monolithic legacy platform to a microservices architecture, improving system throughput by 45%. Oversaw technical roadmap for a team of 20 engineers, ensuring 99.99% system availability.

Senior Software Engineer - Vertex Digital Solutions (2015-06 - 2019-02)

Architected a real-time data processing engine handling over 50k requests per second. Reduced infrastructure expenses by 25% through effective containerization and resource optimization.

Software Engineer - Summit Tech Innovations (2012-07 - 2015-05)

Developed core backend modules for a high-traffic e-commerce platform and mentored junior developers on clean code principles.

EDUCATION

M.Sc. in Software Engineering - Stellar Institute of Technology (2012)

B.Sc. in Computer Science - Evergreen State University (2010)
