margaret.carr288@example.com | 611.472.6754x2055 | Data Engineer (Mid-level)

SUMMARY

Results-oriented Data Engineer with 4 years of experience in designing and optimizing scalable data pipelines. Proven track record in building robust ETL/ELT architectures and improving data reliability for cloud-native analytics platforms.

SKILLS

Python, Apache Spark, SQL, AWS (Redshift, Glue, S3), Airflow, dbt, PostgreSQL, Terraform

EXPERIENCE

Data Engineer - NexusStream Analytics (2021-03 - Present)

Engineered automated ETL pipelines processing 5TB of data daily, resulting in a 30% reduction in query latency. Collaborated with data scientists to deploy scalable machine learning data prep workflows using Spark and Airflow.

Junior Data Engineer - Velocity Data Solutions (2019-06 - 2021-02)

Developed and maintained data warehouse schemas in PostgreSQL and automated data quality checks, improving report accuracy by 25%. Assisted in the migration of on-premise databases to AWS cloud infrastructure.

EDUCATION

B.Sc. in Data Engineering - Summit Valley Institute of Technology (2019)
