

Daniel Fitzgerald

daniel.fitzgerald79@example.com | (223)814-5712x4435 | Data Engineer (Senior)

SUMMARY

Senior Data Engineer with over 8 years of experience in designing and scaling robust ETL pipelines and big data architectures. Proven track record of optimizing data warehouse performance and leading cross-functional teams to deliver high-impact data solutions for enterprise-level platforms.

SKILLS

Python, Apache Spark, AWS (Redshift, S3, Glue), PostgreSQL, Apache Airflow, Terraform, dbt, Kafka

EXPERIENCE

Senior Data Engineer - Nexus Stream Analytics (2020-03 - Present)

Architected a real-time data streaming platform using Kafka and Spark, reducing data latency by 60%. Mentored a team of 4 engineers and optimized cloud infrastructure costs by 25% through automated resource management.

Data Engineer - Vertex Logics Solutions (2016-06 - 2020-02)

Designed and maintained scalable ETL pipelines processing over 5TB of data daily. Successfully migrated legacy on-premise databases to Snowflake, improving query performance by 40% for the analytics team.

EDUCATION

B.Sc. in Computer Science - Institute of Advanced Technology & Research (2016)
