

Matthew Hill

matthew.hill264@example.net | +1-688-393-1846x525 | Data Engineer (Fresher)

SUMMARY

Highly motivated Data Engineering graduate with a strong foundation in building scalable data pipelines and managing distributed databases. Proficient in Python and SQL, with hands-on experience in cloud-based data warehousing and automation through academic and internship projects.

SKILLS

Python, SQL, Apache Spark, AWS (S3, Redshift), Docker, Airflow, ETL Pipeline Development, PostgreSQL

EXPERIENCE

Data Engineering Intern - Nexus Data Solutions (2023-06 - 2023-12)

Developed and maintained 3 automated ETL pipelines using Python and Airflow, resulting in a 20% reduction in manual data processing time. Assisted in migrating legacy database schemas to PostgreSQL, ensuring 99.9% data integrity.

EDUCATION

B.Sc. in Data Science and Engineering - Summit Institute of Technology (2024)
