

Angela Lucas

angela.lucas281@example.com | 627.754.4892x5544 | Machine Learning Engineer (Mid-level)

SUMMARY

Results-driven Machine Learning Engineer with 4 years of experience in designing, training, and deploying scalable AI models. Proven track record in optimizing recommendation engines and predictive analytics systems to drive business efficiency. Seeking to leverage expertise in deep learning and MLOps to deliver impactful data-driven solutions.

SKILLS

Python, PyTorch, TensorFlow, Scikit-learn, SQL, Docker, Kubernetes, AWS SageMaker

EXPERIENCE

Machine Learning Engineer - Nexus AI Solutions (2021-06 - Present)

Led the development of a real-time recommendation system that improved user engagement metrics by 25%. Implemented robust CI/CD pipelines for ML models using Docker and AWS, reducing deployment time from weeks to days.

Junior Data Scientist - Vertex Data Systems (2019-07 - 2021-05)

Automated data preprocessing workflows for large-scale datasets, increasing processing speed by 40%. Collaborated with cross-functional teams to build predictive models that identified key customer churn factors with 85% accuracy.

EDUCATION

M.Sc. in Artificial Intelligence - Summit Institute of Technology (2019)

B.Sc. in Computer Science - Evergreen State College of Engineering (2017)
