

Susan Esparza

susan.esparza235@example.org | 295-610-8806 | Machine Learning Engineer (Fresher)

SUMMARY

Highly motivated Machine Learning Engineer with a strong foundation in predictive modeling, data preprocessing, and algorithm optimization. Passionate about building scalable AI solutions and eager to apply technical skills in deep learning and natural language processing to solve real-world problems.

SKILLS

Python, TensorFlow, PyTorch, Scikit-learn, SQL, Pandas, Docker, Git

EXPERIENCE

Machine Learning Intern - NexusAI Solutions (2023-06 - 2023-12)

Developed a churn prediction model that improved customer retention accuracy by 15% using Random Forest algorithms. Collaborated with the engineering team to deploy a data pipeline that processed over 50,000 records daily.

EDUCATION

B.Sc. in Artificial Intelligence and Data Science - Summit Valley Institute of Technology (2024)
