

Madison Camacho

madison.camacho954@example.org | 7093150659 | System Administrator (Junior)

SUMMARY

Detail-oriented Junior System Administrator with a strong foundation in Linux server management and cloud infrastructure. Passionate about automating repetitive tasks and improving system security, with proven experience in maintaining 99.9% uptime for internal networks.

SKILLS

Linux Administration (RHEL/Ubuntu), Bash Scripting, AWS (EC2, S3, IAM), Docker, Active Directory, Nginx/Apache, Monitoring Tools (Zabbix/Prometheus), Git

EXPERIENCE

Junior System Administrator - Nexus Flow Technologies (2022-06 - Present)

Managed and maintained 40+ Linux-based virtual machines, reducing server deployment time by 30% through custom Bash automation scripts. Assisted in the migration of legacy on-premise infrastructure to AWS, supporting a user base of over 200 employees.

IT Support Intern - Vertex Core Solutions (2021-01 - 2022-05)

Provided Tier 1 technical support and managed user access permissions within Active Directory. Successfully executed weekly data backups, ensuring zero data loss during a critical hardware upgrade phase.

EDUCATION

B.Sc. in Information Technology Systems - Summit Heights Polytechnic Institute (2021)
