

Alexis Flores

alexis.flores368@example.org | +1-764-532-2312x8383 | Software Architect (Mid-level)

SUMMARY

Results-driven Software Architect with 7 years of experience in designing scalable microservices architectures and cloud-native applications. Proven track record of improving system performance by 40% through rigorous design patterns and strategic technical leadership in cross-functional agile teams.

SKILLS

System Design & Architecture, Microservices Pattern, AWS Cloud Infrastructure, Kubernetes & Docker, Java/Spring Boot, PostgreSQL & Redis, CI/CD Pipeline Design

EXPERIENCE

Software Architect - Nexus Flow Dynamics (2020-03 - Present)

Leading the migration of monolithic legacy systems to a microservices architecture, resulting in a 30% reduction in deployment time and improved fault tolerance.

Senior Software Engineer - Vertex Logic Systems (2017-06 - 2020-02)

Designed and implemented high-concurrency APIs for a financial platform, supporting over 50,000 active daily users with 99.99% uptime.

EDUCATION

B.Sc. in Software Engineering - Summit Institute of Technology (2017)
