

Brendan Fields

brendan.fields349@example.net | 280.485.6357 | Software Architect (Mid-level)

SUMMARY

Results-oriented Software Architect with 7 years of experience designing scalable distributed systems and cloud-native applications. Proven track record in optimizing backend performance and leading cross-functional teams to deliver robust enterprise solutions.

SKILLS

System Design, Microservices Architecture, AWS/Azure Cloud Platforms, Java/Spring Boot, Kubernetes, PostgreSQL, Event-Driven Architecture, CI/CD Pipelines

EXPERIENCE

Software Architect - NexusFlow Systems (2020-03 - Present)

Lead the design and migration of a legacy monolithic platform to microservices, resulting in a 40% reduction in deployment time and improved system availability to 99.99%.

Senior Software Engineer - Vertex Digital Solutions (2017-06 - 2020-02)

Architected high-throughput data processing pipelines capable of handling over 1 million requests per day while mentoring a team of 4 junior developers.

EDUCATION

B.Sc. in Software Engineering - Summit Institute of Technology (2017)
