

Lynn Holmes

lynn.holmes779@example.net | 4467112523 | Data Engineer (Junior)

SUMMARY

Motivated Data Engineer with a strong foundation in building scalable data pipelines and managing cloud-based data warehouses. Experienced in optimizing ETL processes and leveraging SQL and Python to deliver actionable business insights.

SKILLS

Python, SQL, Apache Spark, AWS (S3, Redshift), Docker, PostgreSQL, Airflow, Git

EXPERIENCE

Junior Data Engineer - NexusStream Analytics (2022-06 - Present)

Designed and maintained ETL pipelines that processed over 500GB of daily data, improving data availability by 20%. Collaborated with data scientists to automate feature engineering workflows using Apache Airflow and Spark.

Data Engineering Intern - Vertex Logic Solutions (2021-12 - 2022-05)

Assisted in migrating legacy on-premise databases to AWS cloud storage, resulting in a 15% reduction in infrastructure costs. Developed custom SQL scripts to clean and normalize incoming customer datasets.

EDUCATION

B.Sc. in Data Science - Summit Valley Institute of Technology (2021)
