

Colleen Rodriguez

colleen.rodriguez161@example.com | 705-842-5798x0203 | Data Engineer (Mid-level)

SUMMARY

Results-oriented Data Engineer with 4 years of experience in designing robust ETL pipelines and optimizing large-scale data architectures. Proven track record in improving query performance by 40% and implementing cloud-based data solutions for high-growth tech enterprises.

SKILLS

Python, SQL, Apache Spark, AWS (Redshift, S3, Glue), Airflow, dbt, Snowflake, Docker

EXPERIENCE

Data Engineer - NexusStream Analytics (2021-03 - Present)

Architected end-to-end data pipelines using Airflow and Spark, reducing data latency by 30% for real-time analytics. Managed a petabyte-scale data warehouse in Snowflake, improving cost efficiency by 25% through optimized partitioning strategies.

Junior Data Engineer - VertexLogic Solutions (2019-06 - 2021-02)

Developed and maintained Python-based ETL scripts to automate data migration from legacy SQL databases to AWS S3. Collaborated with data scientists to clean and feature-engineer datasets, increasing model training efficiency by 15%.

EDUCATION

B.Sc. in Data Science and Engineering - Stellaris Institute of Technology (2019)
