

John Montoya

john.montoya625@example.com | 993.350.0991 | Cloud Engineer (Mid-level)

SUMMARY

Dedicated Cloud Engineer with over 4 years of experience in designing, deploying, and optimizing scalable cloud infrastructure. Proven expertise in AWS and Azure environments with a strong focus on infrastructure-as-code and automated CI/CD pipelines.

SKILLS

AWS, Terraform, Kubernetes, Docker, Python, Jenkins, Linux Administration, Prometheus

EXPERIENCE

Cloud Engineer - Nexus Stream Solutions (2021-03 - Present)

Led the migration of on-premise microservices to AWS, resulting in a 30% reduction in monthly infrastructure costs. Implemented Terraform modules to standardize environment deployments across development, staging, and production.

Junior Cloud Administrator - Vertex Digital Systems (2019-06 - 2021-02)

Maintained cloud infrastructure and monitored system performance using Grafana, achieving 99.9% uptime for core customer-facing applications. Collaborated with developers to streamline containerized deployment workflows using Docker.

EDUCATION

B.Sc. in Cloud Computing and Network Security - Summit Valley Institute of Technology (2019)
