

Wendy Kirk

wendy.kirk67@example.org | +1-467-519-0593x25291 | Machine Learning Engineer (Senior)

SUMMARY

Highly skilled Machine Learning Engineer with over 7 years of experience in architecting scalable AI solutions and deep learning models. Proven track record in optimizing production pipelines and delivering data-driven insights that significantly enhance operational efficiency.

SKILLS

Python, PyTorch, TensorFlow, Kubernetes, MLOps, AWS SageMaker, SQL, Apache Spark

EXPERIENCE

Senior Machine Learning Engineer - Nexus AI Dynamics (2020-03 - Present)

Led a team of 4 engineers to deploy a real-time recommendation engine, resulting in a 25% increase in user click-through rate. Implemented automated CI/CD pipelines for ML models, reducing deployment time from weeks to hours.

Machine Learning Engineer - Vertex Data Solutions (2017-06 - 2020-02)

Developed and maintained predictive maintenance models for industrial IoT, achieving 92% accuracy in hardware failure prediction. Optimized large-scale data processing workflows using Apache Spark, reducing compute costs by 15%.

EDUCATION

M.Sc. in Artificial Intelligence - Institute of Advanced Technology and Sciences (2017)

B.Sc. in Computer Science - Northern Heights University (2015)
