jessica.hall706@example.net | 001-202-383-1068x021 | Machine Learning Engineer (Fresher)

SUMMARY

Highly motivated Machine Learning enthusiast with a strong foundation in predictive modeling, data analysis, and software engineering. Passionate about developing scalable AI solutions and eager to apply academic research and hands-on internship experience to drive innovation in a fast-paced development team.

SKILLS

Python, TensorFlow, PyTorch, Scikit-learn, SQL, Docker, AWS, Pandas

EXPERIENCE

Machine Learning Intern - Nexus AI Solutions (2023-06 - 2023-12)

Developed and optimized a customer churn prediction model, achieving an 85% accuracy rate using Scikit-learn. Collaborated with the engineering team to deploy two microservices via Docker, reducing data processing time by 15%.

EDUCATION

B.Sc. in Artificial Intelligence and Data Science - Summit Valley Institute of Technology (2024)
