

Heather Jennings

heather.jennings374@example.net | (298)731-9012 | Database Administrator (Mid-level)

SUMMARY

Detail-oriented Database Administrator with 5 years of experience in managing high-availability SQL and NoSQL environments. Proven track record in optimizing query performance, implementing automated backup solutions, and ensuring 99.99% database uptime for large-scale enterprise applications.

SKILLS

PostgreSQL, MySQL, MongoDB, AWS RDS, SQL Performance Tuning, Python Scripting, Shell Scripting, Database Migration

EXPERIENCE

Database Administrator - NexusFlow Data Solutions (2021-03 - Present)

Managing a fleet of 50+ PostgreSQL clusters, reducing query latency by 35% through proactive index optimization and schema refactoring. Architected a disaster recovery plan that reduced data restoration time by 60% during emergency drills.

Junior Database Developer - Vertex Stream Technologies (2019-06 - 2021-02)

Maintained MySQL production databases and developed automated monitoring scripts using Python, which improved incident response times by 20%. Supported the migration of legacy on-premise databases to AWS RDS with zero data loss.

EDUCATION

B.Sc. in Database Systems Engineering - Summit Valley Institute of Technology (2019)
