

Ronald Taylor

ronald.taylor385@example.org | 712-886-0074x3535 | Data Engineer (Fresher)

SUMMARY

Highly motivated Data Engineering graduate with a strong foundation in building scalable ETL pipelines and database management. Eager to leverage technical skills in Python, SQL, and cloud technologies to contribute to data-driven decision-making processes.

SKILLS

Python, SQL, Apache Spark, PostgreSQL, Docker, AWS (S3, EC2), Git, Tableau

EXPERIENCE

Data Engineering Intern - Nexus Data Solutions (2023-06 - 2023-12)

Developed and optimized Python scripts for automated data extraction from APIs, reducing manual processing time by 30%. Assisted in maintaining PostgreSQL databases and performed data cleaning tasks on datasets exceeding 1 million records.

EDUCATION

B.Sc. in Data Science and Engineering - Summit Polytechnic University (2024)
