

Jessica Hodge

jessica.hodge17@example.org | 5125263581 | Machine Learning Engineer (Fresher)

SUMMARY

Highly motivated Machine Learning enthusiast with a strong foundation in predictive modeling, data preprocessing, and algorithm optimization. Passionate about building scalable AI solutions and leveraging data-driven insights to solve complex engineering challenges.

SKILLS

Python, PyTorch, Scikit-learn, TensorFlow, SQL, Docker, Pandas, Git

EXPERIENCE

Machine Learning Intern - NexusAI Solutions (2023-06 - 2023-12)

Developed and optimized a customer churn prediction model, improving classification accuracy by 12%. Collaborated with the engineering team to deploy a data processing pipeline using Docker, reducing manual data cleaning time by 20%.

EDUCATION

B.Sc. in Artificial Intelligence - Summit Technical University (2024)
