

Chloe Schaefer

chloe.schaefer28@example.com | +1-946-219-7382x078 | Software Architect (Senior)

SUMMARY

Accomplished Software Architect with over 10 years of experience designing scalable distributed systems and microservices architectures. Proven track record in leading cross-functional engineering teams to deliver high-performance cloud-native solutions that reduce operational costs by up to 30%. Expert in aligning technical strategies with complex business objectives to drive digital transformation.

SKILLS

System Design & Microservices, Cloud Computing (AWS/Azure), Kubernetes & Docker, Java & Go, Event-Driven Architecture, PostgreSQL & Redis, CI/CD Pipelines, API Gateway Management

EXPERIENCE

Software Architect - NexusFlow Systems (2019-03 - Present)

Led the architectural redesign of the core legacy platform into a cloud-native microservices ecosystem, resulting in a 40% improvement in system uptime. Manage a team of 15 engineers to implement CI/CD best practices and secure coding standards.

Senior Backend Developer - Vertex Digital Solutions (2015-06 - 2019-02)

Designed high-concurrency backend services capable of handling over 1 million daily active users. Optimized database queries and caching strategies, reducing average latency by 200ms.

Software Engineer - Aether Data Corp (2012-07 - 2015-05)

Developed and maintained RESTful APIs for enterprise client applications. Collaborated with DevOps to automate deployment processes, shortening release cycles by 50%.

EDUCATION

M.Sc. in Software Engineering - Institute of Advanced Computing Technology (2012)

B.Sc. in Computer Science - Beacon Valley Polytechnic (2010)
