

# Mark Peterson

mark.peterson137@example.net | +1-919-399-0559x375 | Machine Learning Engineer (Fresher)

## SUMMARY

Highly motivated Machine Learning enthusiast with a strong foundation in predictive modeling, data preprocessing, and algorithm optimization. Proven track record of delivering end-to-end ML solutions through academic and internship projects, eager to leverage Python and deep learning frameworks to solve complex business challenges.

## SKILLS

Python, PyTorch, Scikit-learn, TensorFlow, SQL, Docker, Git, Data Visualization

## EXPERIENCE

**Machine Learning Intern** - NexGen AI Solutions (2023-06 - 2023-12)

Developed and optimized a customer churn prediction model using Random Forest, achieving a 15% improvement in F1-score. Automated data cleaning pipelines, reducing manual preprocessing time by 10 hours per week.

## EDUCATION

B.Sc. in Artificial Intelligence - Summit Institute of Technology (2024)
