

Joshua Stevens

joshua.stevens503@example.org | 001-664-200-1559x622 | Cloud Engineer (Senior)

SUMMARY

Accomplished Cloud Engineer with over 8 years of experience designing and managing scalable, secure, and cost-effective cloud infrastructure. Proven expertise in multi-cloud environments, automated CI/CD pipelines, and microservices architecture to optimize system performance and reliability.

SKILLS

AWS, Terraform, Kubernetes, Python, Jenkins, Prometheus, Grafana, PostgreSQL

EXPERIENCE

Senior Cloud Engineer - NebulaStream Solutions (2020-03 - Present)

Architected a multi-region Kubernetes cluster on AWS, reducing deployment time by 40% and improving system availability to 99.99%. Led a team of 4 engineers in migrating legacy monolithic applications to a microservices architecture.

Cloud Engineer - Vertex Digital Dynamics (2016-06 - 2020-02)

Implemented Infrastructure as Code (IaC) using Terraform, which automated the provisioning of cloud resources and decreased infrastructure costs by 25% annually. Managed high-traffic production environments serving over 500k daily active users.

EDUCATION

B.Sc. in Computer Engineering - Summit Valley Institute of Technology (2016)
