

Angel Vaughn

angel.vaughn999@example.com | 391-474-0393x880 | Business Analyst (IT) (Fresher)

SUMMARY

Detail-oriented Business Analyst graduate with a strong foundation in translating technical requirements into actionable business solutions. Proficient in process modeling, data analysis, and documentation, eager to leverage internship experience to drive efficiency in agile development teams.

SKILLS

SQL, Jira & Confluence, BPMN 2.0, UML Modeling, Microsoft Power BI, Agile/Scrum Methodology, Requirements Engineering

EXPERIENCE

Business Analyst Intern - Nexus Flow Systems (2023-06 - 2023-12)

Collaborated with cross-functional teams to document user stories and functional requirements for a CRM migration project, resulting in a 15% improvement in requirement clarity. Assisted in the creation of 10+ workflow diagrams using BPMN to optimize internal data validation processes.

EDUCATION

B.Sc. in Information Systems - Summit Institute of Technology (2024)
