

Heidi Buck

heidi.buck124@example.net | 661-574-0757x82093 | Cloud Engineer (Senior)

SUMMARY

Senior Cloud Engineer with over 8 years of experience designing, deploying, and scaling robust cloud infrastructure. Expert in AWS, Kubernetes, and IaC methodologies, with a proven track record of optimizing system performance and reducing infrastructure costs by 30%.

SKILLS

AWS, Terraform, Kubernetes, Docker, Python, CI/CD Pipelines, Prometheus & Grafana

EXPERIENCE

Senior Cloud Engineer - NexusScale Systems (2020-03 - Present)

Architected multi-region AWS cloud environments using Terraform, resulting in a 40% reduction in deployment time. Led the migration of legacy monolithic services to microservices on EKS, supporting a 200% increase in user traffic.

Cloud Engineer - Vortex Cloud Solutions (2016-06 - 2020-02)

Implemented automated CI/CD pipelines using Jenkins and Docker, decreasing release cycles by 50%. Managed a cloud infrastructure serving over 500k monthly active users with 99.99% uptime.

EDUCATION

B.Sc. in Computer Science - Summit Valley Institute of Technology (2015)
