

Christopher Allen

christopher.allen245@example.net | 001-441-752-4740x444 | Cloud Engineer (Senior)

SUMMARY

Accomplished Cloud Engineer with over 8 years of experience in designing, deploying, and optimizing scalable cloud infrastructure. Proven track record in migrating legacy systems to microservices architectures and reducing operational costs by 30% through automated CI/CD pipelines.

SKILLS

AWS, Kubernetes, Terraform, Python, Go, Jenkins, Prometheus, PostgreSQL

EXPERIENCE

Senior Cloud Engineer - NebulaStream Solutions (2020-03 - Present)

Lead architect for multi-region AWS deployments, managing a cluster of over 500+ containers and reducing infrastructure latency by 40%.

Cloud Engineer - Vertex Tech Dynamics (2016-06 - 2020-02)

Spearheaded the migration of on-premises data centers to AWS, resulting in a 25% increase in system reliability and automated recovery processes.

EDUCATION

B.Sc. in Computer Science - Stellar Institute of Technology (2015)
