jessica.abbott566@example.net | +1-758-900-6040 | Database Administrator (Mid-level)

## SUMMARY

Detail-oriented Database Administrator with 5 years of experience in managing large-scale SQL and NoSQL environments. Proven track record in optimizing query performance, implementing robust backup strategies, and ensuring 99.9% database availability for high-traffic enterprise applications.

## SKILLS

PostgreSQL, MySQL, MongoDB, AWS RDS, SQL Optimization, Shell Scripting, Database Security, Redis

## EXPERIENCE

### Database Administrator - NexusStream Data Systems (2021-03 - Present)

Managing a fleet of 50+ database instances and reduced query latency by 30% through index optimization and schema refactoring. Spearheaded the migration of legacy on-premise databases to AWS RDS, resulting in a 20% reduction in annual infrastructure costs.

### Junior Database Developer - Vertex Core Solutions (2019-06 - 2021-02)

Developed and maintained automated backup scripts using Bash and Python, ensuring zero data loss during critical system upgrades. Collaborated with the backend team to design efficient database schemas for new microservices.

## EDUCATION

B.Sc. in Database Engineering - Summit Institute of Technology (2019)
