

Paula Vincent

paula.vincent105@example.org | 001-287-295-2087x2754 | Database Administrator (Senior)

SUMMARY

Accomplished Database Administrator with over 8 years of experience in designing, managing, and optimizing high-availability database systems. Expert in performance tuning, disaster recovery planning, and complex SQL architecture for large-scale enterprise applications.

SKILLS

PostgreSQL, Oracle Database, SQL Server, AWS RDS, Redis, Terraform, Python scripting, Performance Tuning

EXPERIENCE

Senior Database Administrator - Nexus Stream Data Systems (2019-03 - Present)

Led the migration of on-premise databases to AWS RDS, improving query latency by 40% and reducing infrastructure costs by \$150k annually. Managed a cluster of 50+ PostgreSQL instances supporting over 2 million active users.

Database Administrator - Vertex Core Solutions (2015-06 - 2019-02)

Maintained Oracle production environments with 99.99% uptime and developed automated backup/restore scripts using Python, reducing manual recovery time by 60%.

EDUCATION

B.Sc. in Computer Science - Institute of Applied Informatics and Technology (2015)
