

Tim Smith

tim.smith534@example.com | (992)940-2259x05765 | Database Administrator (Senior)

SUMMARY

Accomplished Senior Database Administrator with over 8 years of experience in designing, implementing, and optimizing large-scale database environments. Proven expertise in ensuring high availability, disaster recovery, and peak performance for mission-critical systems in enterprise-level infrastructures.

SKILLS

PostgreSQL, Oracle Database, SQL Server, MongoDB, AWS RDS, Terraform, Shell Scripting, Performance Tuning

EXPERIENCE

Senior Database Administrator - Nexus Systems Solutions (2020-03 - Present)

Lead the database architecture team managing over 50TB of data, resulting in a 40% reduction in query latency through aggressive indexing and partitioning strategies.

Database Administrator - Vortex Digital Infrastructure (2016-06 - 2020-02)

Managed multi-region database clusters, maintaining 99.99% uptime for core service applications and automating backup processes that saved 15 hours of manual work per month.

EDUCATION

B.Sc. in Database Engineering - Summit Technical University (2015)
