

Kathy Cox

kathy.cox304@example.com | 001-469-225-6412x5826 | Cloud Engineer (Mid-level)

SUMMARY

Results-oriented Cloud Engineer with 4 years of experience in designing, deploying, and managing scalable cloud infrastructure. Proven track record in optimizing CI/CD pipelines and reducing operational costs by 20% through efficient resource allocation.

SKILLS

AWS, Terraform, Kubernetes, Docker, Python, Jenkins, Linux Administration, Prometheus

EXPERIENCE

Cloud Engineer - NebulaStream Tech Solutions (2021-06 - Present)

Led the migration of legacy monolith applications to microservices architecture on AWS, improving system availability to 99.9%. Managed infrastructure as code for 50+ production environments using Terraform.

Junior Cloud Administrator - Vertex Digital Systems (2019-07 - 2021-05)

Assisted in the maintenance of cloud server clusters and automated routine deployment tasks, reducing manual configuration time by 30%. Supported the DevOps team in implementing monitoring solutions using Prometheus and Grafana.

EDUCATION

B.Sc. in Cloud Computing and Network Engineering - Stellar Institute of Technology (2019)
