

# Jessica Brown

jessica.brown194@example.org | 4297791427 | DevOps Engineer (Junior)

## SUMMARY

Highly motivated Junior DevOps Engineer with a strong foundation in cloud infrastructure and CI/CD automation. Passionate about streamlining deployment pipelines and enhancing system scalability through Infrastructure as Code practices.

## SKILLS

AWS, Docker, Kubernetes, Terraform, Jenkins, Python, Linux, Git

## EXPERIENCE

**Junior DevOps Engineer** - CloudPulse Solutions (2022-06 - Present)

Automated deployment processes using Jenkins, reducing release time by 30%. Managed AWS cloud infrastructure via Terraform and improved system uptime to 99.9%.

**DevOps Intern** - Nexus Tech Labs (2021-06 - 2022-05)

Assisted in containerizing microservices using Docker, resulting in a 20% improvement in environment consistency. Monitored server health and assisted in the migration of legacy services to the cloud.

## EDUCATION

B.Sc. in Information Technology - Summit Valley Institute of Technology (2021)
